EDUCATION

Washington University in St. Louis | St. Louis, MO

May 2026

Bachelor of Science in Computer Science

- **Relevant Coursework:** Data Structures and Algorithms, Database Management Systems, Parallel & Concurrent Programming, Computer Security, AI, Rapid Prototype Development, Technical Writing, UX Research Methods, Visual Principles for the Screen

EXPERIENCE

The Bobcat Press | St. Louis, MO

December 2023 – Present

Founder/Manager/Writer/Graphic Designer

- Founded an online news publication highlighting independent creators in St. Louis and Columbus, releasing monthly exclusive interviews with different local artists
- Produced graphic design elements for promotional material, branding, and article thumbnails with Figma, Canva, and InDesign
- Coordinated a team of 5 writers, providing feedback, editing, managing schedules, and connecting writers with local artists

WashU McKelvey School of Engineering | St. Louis, MO

August 2024 – December 2025

Teaching Assistant

- Guided in-class studio sessions and held office hours for WashU's introductory computer science course (CSE 1301, FL24-FL25)
- Headed weekly office hour sessions for Database Management Systems (CSE 435, FL24)
- Graded and delivered feedback on assignments and exams for around 100 students

JamPad | Columbus, OH

July 2024 – November 2025

Founder/Full-Stack Developer

- Developed and released an iOS app allowing users to discover, share, and save local music events using SwiftUI, Apple's MapKit library, and a PostgreSQL backend
- Arranged weekly summer meetings with a marketing team to present updates and set deadlines for new features and releases
- Managed deployment and development of a browser compatible React-based web app for non-iOS users, refactoring existing code to align with modern programming paradigms and limit excess network traffic
- Documented key features of the mobile app for 100 active monthly users through a custom site built with Angular

LEADERSHIP

Game Development & Design Studio | St. Louis, MO

October 2023 – December 2025

Project Manager/Programming Lead

- Coordinated teams of 4-8 programmers for year long development efforts on three flagship projects between 2023-2025
- Established weekly project goals and supplied foundational scripts to team members documenting core functionality and integration requirements in Unity/C#
- Handled GitHub pull requests and integration of individual components into cohesive final deliverables

Bearshell Cybersecurity Club | St. Louis, MO

August 2024 – December 2025

Co-President/Treasurer

- Presented monthly on a variety of cybersecurity topics including web security, cryptography, steganography, and reverse engineering
- Organized online resources for new members and scheduled bi-weekly meetings

PROJECTS

Up All Night with Tim Youd | St. Louis, MO

March 2025 – April 2025

- Designed and deployed a pure HTML/CSS/JS website (as per project requirements) on a two week timeline to promote/host LA based artist Tim Youd's project "Up All Night"
- Configured daily site updates through GitHub Actions to handle Spotify Podcast uploads and automatically link new episodes to interactable frontend elements

Bloom: Language Learning | Columbus, OH

June 2023 – August 2024

- Developed an iOS app with over 1000 downloads used in real classroom environments to assist in foreign language learning
- Implemented an educational curriculum into a comprehensive mobile experience, utilizing the Unity Engine and C# for gameplay and a document-based NoSQL backend to track account progress

NBA All-Star Predictor | St. Louis, MO

October 2023 – January 2024

- Trained a logistic regression model to predict whether current NBA players would be all-stars, using Python's scikit-learn library and over 15 years of historical NBA data
- Designed a website built on Flask to generate model predictions and league-wide statistics from current regular-season data, with daily updates to player data and team standings

SKILLS

- **Programming:** Java, Python, Swift, SwiftUI, React, Django, Flask, Angular, C#, JavaScript, Typescript, C++, C, SQL, React Native
- **Platforms:** GitHub, Unity, Supabase, Firebase, AWS, Canva, Figma, Adobe InDesign
- **Languages:** English, Spanish (Working Proficiency - Ohio Seal of Biliteracy)
